8 MODELS FROM 150,000 TO 800,000 BTU/HR
96% THERMAL EFFICIENCY
5:1 TURNDOWN RATIO
CONDENSING STAINLESS STEEL HEAT EXCHANGER
SMART SYSTEM™ W/CASCADING SEQUENCER
CONXUS® REMOTE CONNECT CAPABLE

AN INNOVATION IN COMMERCIAL WATER HEATING
A BETTER WAY TO ACHIEVE 96% THERMAL EFFICIENCY

ARMOR is a fully condensing commercial gas water heater. Available in eight models with inputs ranging from 150,000 to 800,000 Btu/hr, the ARMOR achieves 96% thermal efficiency.

SEPARATE TANK FOR FLEXIBILITY, LOWER REPLACEMENT COSTS

With standard tank-type water heaters, your choices are limited when it comes to matching input with storage capacity to meet “peak demand” delivery requirements. With ARMOR, you can match one or more water heaters with one or more storage tanks in a wide variety of sizes. Lochinvar Lock-Temp® tanks are available from our 80-gallon vertical to the 5000-gallon vertical or horizontal model. Another advantage of the ARMOR “dual component” system is lower replacement costs. Standard tank-type designs require replacement of the entire water heater. With ARMOR, you’ll save time and money by only replacing individual components as needed, such as the pump or storage tank.

FULLY MODULATING WITH 5:1 TURNDOWN

ARMOR features advanced Negative Regulation (Neg/Reg) sealed combustion technology, permitting fan speed to constantly adjust the volume of fuel and air entering the burner. This ensures that ARMOR can safely and reliably operate with supply gas pressure as low as 4 inches water column.

ARMOR is equipped with fully modulating combustion with 5:1 turndown. This means ARMOR can fire as low as 20% of maximum input when water heating demand is lowest, and increase the firing rate up to 100% as demand increases. The result is better overall efficiency and less cycling, compared to “on-off” tank-type units which can only fire at 100% input.

STAINLESS STEEL CONDENSING HEAT EXCHANGER

The ARMOR’s stainless steel heat exchanger is built to ASME Section IV requirements. Its design provides superior resistance to corrosion caused by condensation from low entering water temperatures. Non-condensing commercial water heaters will fail early with low entering water temperatures; however, with the ARMOR the lower the supply water temperature the more efficiently it performs throughout the life of the heater.

DIRECT-VENTING UP TO 100 FEET

ARMOR offers 7 venting options and tremendous flexibility for placement of units within the building, because it permits direct-vent air intake and exhaust runs up to 100 equivalent feet using either PVC, CPVC, Polypropylene or AL29-4C stainless steel vent pipe. Intake and exhaust runs can terminate horizontally through a sidewall or vertically through the roof.

FACTORY SUPPLIED AND SHIPPED STANDARD WITH EVERY MODEL

*Optional Concentric Vent Kit Sold Separately (for 151-601 Models)
**WATER HEATER CONTROL, FROM ANYWHERE.**

ARMOR features the next generation of Lochinvar’s all-in-one SMART SYSTEM operating control with an advanced multi-color LCD interface. SMART SYSTEM provides outstanding functionality, and can be integrated directly into a Building Management System via ModBus and other communication protocols. And now, the CON·X·US mobile communication platform allows SMART SYSTEM to go where no other water heater has gone before.†

CON·X·US provides the ability to monitor and manage Armor water heaters without ever stepping into the mechanical room. CON·X·US will send alerts via text or e-mail with notification of changes in system status, and anytime, from anywhere, a user can check system status and re-program water heater functions. Once downloaded, the free CON·X·US mobile application allows for remote access to all SMART SYSTEM functions using any internet-capable device.

**LONG-LASTING “LIFE CYCLE” EFFICIENCY**

In a standard tank-type water heater, lime scale builds up over time on important heat transfer surfaces, insulating the water from the heat source. This decreases thermal efficiency and increases operating cost. Just 1/4” of lime scale can increase operating costs as much as 25%! This buildup in the bottom of the tank and around the flue tubes can cause tank-type heaters to fail in as little as 2-3 years.

ARMOR’s “Better idea” concept eliminates the impact of lime scale, maintaining a high-rated thermal efficiency and low operating cost throughout its long life cycle.

The chart below illustrates how ARMOR is a better way, delivering true “life cycle efficiency” compared to standard tank-type units.

---

**Efficiency Loss Due to Lime Scale Buildup**

<table>
<thead>
<tr>
<th>Years of Operation</th>
<th>Efficiency Loss</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>100%</td>
</tr>
<tr>
<td>1</td>
<td>90%</td>
</tr>
<tr>
<td>2</td>
<td>80%</td>
</tr>
<tr>
<td>3</td>
<td>70%</td>
</tr>
<tr>
<td>4</td>
<td>60%</td>
</tr>
<tr>
<td>5</td>
<td>50%</td>
</tr>
</tbody>
</table>

NOTE: The chart is based on lime scale build-up of 0.016” per year which reduces efficiency approximately 8-10% per year.

---

**7 FLEXIBLE VENTING OPTIONS** - Up to 100 feet of air intake and 100 feet of exhaust vent with PVC, CPVC, Polypropylene or Stainless Steel.
ARMOR™ WATER HEATER DIMENSIONS AND SPECIFICATIONS

STANDARD FEATURES
- 96% Thermal Efficiency (AHRI Certified)
- Modulating Burner with 5:1 Turndown
- Direct-Spark Ignition
- Low NOx Operation
- Sealed Combustion
- Low Gas Pressure Operation
- Vertical & Horizontal Direct-Vent
- PVC, CPVC, Polypropylene or Stainless Steel up to 100 Feet
- PVC/CPVC Sidewall Vent Termination
- Stainless Steel Heat Exchanger
- All Welded Construction, Gasketless Design
- 160 psi Working Pressure
- ASME Construction (AW 286-801)
- Natural to L.P. Conversion Kit
- Condensate Neutralization Kit
- Front-End Loading Capability with CopperFin II
- Efficiency Optimization
- Front-End Loading Capability with CopperFin II
- Building Management System Integration
- 0-10 VDC Input to Control Modulation or Set point
- 0-10 VDC Modulation Rate Output
- 0-10 VDC Input to Enable/Disable call for heat
- Access to BMS Settings Through Graphic LCD Display
- Low Water Flow Safety Control & Indication
- Inlet & Outlet Temperature Sensors & Readout
- Low Voltage Terminal Strip
- 24 VAC Auxiliary Device Relay
- Auxiliary Proving Switch Contacts
- Flow Switch Contacts
- Alarm on Any Failure Contacts
- Maintenance Reminder
- Ability to program installer name and number into the product as service contact
- High Voltage Terminal Strip
- 120 VAC / 60 Hertz / 1 Phase Power Supply
- Water Heater Pump Control Contacts
- Building Recirculation Pump Control Contacts
- Building Management System Integration
- 0-10 VDC Input to Control Modulation or Set point
- 0-10 VDC Modulation Rate Output
- 0-10 VDC Input to Enable/Disable call for heat
- Access to BMS Settings Through Graphic LCD Display
- Low Water Flow Safety Control & Indication
- Inlet & Outlet Temperature Sensors & Readout
- Low Voltage Terminal Strip
- 24 VAC Auxiliary Device Relay
- Auxiliary Proving Switch Contacts
- Flow Switch Contacts
- Alarm on Any Failure Contacts
- Maintenance Reminder
- Ability to program installer name and number into the product as service contact
- High Voltage Terminal Strip
- 120 VAC / 60 Hertz / 1 Phase Power Supply
- Water Heater Pump Control Contacts
- Building Recirculation Pump Control Contacts
- Building Management System Integration
- 0-10 VDC Input to Control Modulation or Set point
- 0-10 VDC Modulation Rate Output
- 0-10 VDC Input to Enable/Disable call for heat
- Access to BMS Settings Through Graphic LCD Display
- Low Water Flow Safety Control & Indication
- Inlet & Outlet Temperature Sensors & Readout
- Low Voltage Terminal Strip
- 24 VAC Auxiliary Device Relay
- Auxiliary Proving Switch Contacts
- Flow Switch Contacts
- Alarm on Any Failure Contacts
- Maintenance Reminder
- Ability to program installer name and number into the product as service contact
- High Voltage Terminal Strip
- 120 VAC / 60 Hertz / 1 Phase Power Supply
- Water Heater Pump Control Contacts
- Building Recirculation Pump Control Contacts

OPTIONAL EQUIPMENT
- CON-X-US Remote Connectivity
- Alarm on any failure
- Condensate Neutralization Kit
- High & Low Gas Pressure Switches (AW 501-801)
- Concentric Vent Kit (3” & 4” PVC/CPVC only)
- BMS Gateway to LON
- BACnet Communication
- ModBus Communication
- SMART SYSTEM PC Software
- Room Air Vent Kits
- Stack Frame
